A. FCE position on Equality: General Election 2017

Fife Centre for Equalities wants to see an equal society that values common goals as well as differences. We want everyone to be included no matter who they are, where they live or whether they wish to be labelled. As an independent charity, we monitor long-term and UK-wide equality trends that have been highlighted at UK/National as well as Fife-area level (e.g. Equality Groups in Fife, 2016-2017).

As a follow up our General Election 2017 Equality Hustings, we build on the questions asked to candidates on the day and put also forwards the UK-wide equality issues highlighted below. We ask the representatives of all political parties to consider what policies they would put in place to protect the people of Fife as office bearers of the future UK Government in how they:

- How to **evidence and assess** the degree of fairness (or unfairness) present for different groups in societyii
  - For instance, the Race Equality Frameworkiii will monitor one of out of nine protected characteristics of the Equality Act that experience discrimination, prompting for a wider approach
- How to deal with the entrenched attainment gaps in **education**
  - This, particularly in the case of BAME and gypsy traveller children and young peopleiv
- How to increase fairness in recruitment, development and reward of **employment** across section
  - With particular focus on gender segregation and unequal pay across industry sectorsv
- Improving living conditions for community safety and cohesion
  - Including how to popularise **safes places**vi across the protected characteristics and how to deal with **hate crime, harassment and abuse**vii
- The issue of diminishing diversity in **politics**viii, democratic participation as well as the **access to justice** following the cuts to legal aidix
- How to provide equal access to **health and care services** that treats all people with dignity
- Impact on the economy of Brexit and related changes to immigration patterns
  - Particularly as the OBR forecasted £6 billion shortfall in tax receipts due to fall in immigration to the UK by 2020-2021
- And finally, how do we balance **civil liberties and public safety** in the current climate of fear of terrorism
B. Manifesto comparison: how do the parties address long-term equality issues?

Below is a comparison of how the respective manifestos directly address the equality trends, taking into account 3 or 6-yearly intervals at UK/National level (i.e. data from EHRC *Is Britain Fairer* / *Is Scotland Fairer*, 2016) and also yearly at Fife-area level (2016-2017)^x.

**Please note:** the comparison below does not necessarily consider topics that have featured in media and news up to including the last days of the election campaign but instead focuses on a range of long-standing issues. Also, this is comparison of how the manifesto’s *pledges* correlate to the EHRC’s *Equality Measurement Framework* and *Human Rights Measurement Framework* and not FCE’s position.

C. Breakdown by policy area

1. **Legal security and physical security; the right to Life**
   Including: Crime, Gender-based violence, Hate crime

Confidence in the criminal justice system increased and the use of police use of stop and search has been reviewed recently reformed\(^x\).

   **CONS:** Police-recorded hate crime in relation to disability and sexual orientation increased. People more likely to report feeling unsafe are women, disabled people, older people and people who had never worked or were long-term unemployed. Confidence in the criminal justice system was noticeably lower for disabled people and older people. Across the UK, overcrowding in prisons still persists. The stigma towards Gypsy/Travellers and Roma people remained, also indicated by figures in hate crime. Harassment of LGB people and ethnic minorities also continued.
